[Heather Cowen](#)

'Heather and Gabriella are vibrational magicians:

In various ways they work with the consciousness of the Earth – resounding the Earth, through the weaving of sound into coherent fields of possibility, through the crafting of metal instruments in conscious co-creation with the elements including the metals themselves, through journeys and classes.

Gabriella and Heather both came from a classical music background and both changed direction through experiences with nature. Using their skills and sensitivities they allow the spirit of place and time and all of those present to inspire and inform the soundscape that is woven. Their work with individuals, groups and land has facilitated change, greater awareness and possibilities, relaxation, release and healing.

Their music facilitates an opportunity to drop into the power and beauty of stillness and the mystery of creation. With a wide range of musical instruments like cello, zither, flutes with metal sound instruments, singing bowls, gongs, tubular bells hand crafted by Heather and Gabriella in their own forge the duo weaves music that opens mind body and soul, relaxes and creates coherence – allowing listeners to come into greater harmony.

One tone can open to multidimensional ranges of frequency – expanding the listener to a new depth of experience that includes silence and stillness within the vastness of sound...

*Where words fall short... sound continues'*

And... also the beauty-full yogini ...

Sanne Theben Terville is an international yoga & meditation teacher from the Netherlands based in Faro - Portugal. She has been practicing yoga and meditation with passion and whole heartedness from an early age. She aims to share the inner peace, physical balance and, above all, the pure love that the authentic forms of yoga, meditation and massage give her with as many people as possible, in which she is guided by her heart energy and trusts her intuition.

She is grateful to be able to offer people physical, emotional and psychological relaxation and holistic healing through classes, workshops, coaching and therapy. She feels what is needed in the moment, what has been created and what can be created... and what she can do for others. With her gentle voice she takes beautiful souls on a journey inwards, an open space where they can be themselves, let everything go and heal... creating the space to surrender to relaxation.

Sanne is the resident yoga teacher at Casa Fuzetta, among others, where she organizes wholesome retreats and event with inspiring themes. Sanne strives to incorporate aspects of many yoga styles, mindfulness and meditation in her teachings. If needed or desired, she also uses massage or a soft manual touch as a part of the yoga practice. Her yoga style is suitable for everyone, is never the same - improvised - and is mostly based on Yin Yang movements to achieve balance and groundedness. Yin Yang yoga blends two styles of yoga into one practice - bringing together the benefits of passively holding yoga poses with more dynamic sequences and standing postures. Sanne also provides yoga massage and Reiki, which can be booked separately.

## Portugal May 6-11, 2020 Olhão, Algarve

Dear Beauty-full Soul,

It is my privilege to personally invite you to join me for an amazing over-the-top, out-of-this-world adventure, beyond time and space and back again, 5 day retreat held at the luxurious [Casa Fuzetta](#), in Olhão, Algarve, Portugal May 6-11 2020!!

This invitation is being extended to both men and women as BIG LOVE knows no boundaries. It is believed that humanity is at the stage where we are consciously capable of helping to direct our evolution by what we choose to align, study, read and surround ourselves with. By choosing to align with a high frequency of Love, i.e. the **Geometries of Love**, we guide the harmonic balance of opposites, help create and build our 'temples' from the inside out, create new neuro-pathways, re-structure our internal systems and create a 'vessel' capable of running higher frequencies at higher intensities for longer periods of time. This is about conscious evolution, conscious creation and sacred geometry.

To accomplish this: a **new human energetic system** which will allow the above mentioned to happen with greater ease. It is an amazing system, truly of the future and for those leading the way. It's promise: "Beyond your ability to cognate."

This will be an easy, though powerful, flow of new information, sound/vibrational magic, audio/visual, meditations, body movements, love mudras interspersed with incredible food, some island beach time, local colourful waterfront marketplace shared with new visionary friends in an extraordinary venue!

If you choose the path of love as your journey and as a way to impact the world, then we invite you to join us for this truly one-of-a-kind upcoming retreat where you will learn how this can be accomplished – right now, in this lifetime, affecting your future and those that come after you.
